

Chung-Ang University's Student Services for International Exchange Students

1. Global Ambassadors

Every exchange student will have their own buddy called "Global Ambassador." They will help you adjust to Korean life, pick you up at the airport, and get in the dormitory room. They will also help you to sign up for our cultural activities (called "CKEP") and visit the places with you as a guide.

You can always ask them about anything you are curious about, or anything involving school life. They all speak basic English and some of them are good at other languages like Chinese, French, etc.

The existence of Global Ambassadors guarantee high-quality of service for the international students.
